Thomas Vernon Fitch Declares Latest Spouse Knovis Hardships He Has Had To Do With in the Dark Past

Harvard Takes Varsity Fours Four times married and three times divorced, all within a period of wenty years, is the domestic record just established by Charles Vernon Fitch, a Hayward painter, the bride in the present instance being Sofie Thomsen, also of Hayward. Fitch obtained the license authorizing his latest nuptial venture, last evening at the office of the County Clerk, giving his age as 43 and that of Mrs. Fitch No. 4 as 40. He had only been released from IN EARLY STAGES his marital obligations to Mrs. Fitch No. 3 about a week ago by final decree of divorce, and when it was suggested to him by Deputy County Clerk Cunha Gradually the Cambridge Men that apparently he was "going some" to tackle Dan Cupid again so soon, in the face of his past experi nees in this line, Fitch simply laughed joyously

"I guess I have finally found the girl who will make me happy. She knows all-about the wives I have put behind me by legal process and says she is not a bit afraid to hi ch up with me. So why shouldn't I marry her?"

Found it Easy to Be Single

NEW LONDON. June 30.—Harrard wot the 'varsity eight-oared race here today by four lengths.

At 4:33 p. m. both crews were at the stake hoat ready to start.

At the half mile the crews were even. At the mile Harvard led by almost a length. At the mile and a half Yal's sprinted and drew up on even terms, but soon dropped back. In the next half Harvard regained her lead of half a length. It was an easy fight that Fitch had to make to get rid of Mrs. Fitch No. whom he married in O kland in March 1900. They had lived together for almost nine years and then came the rupture that led to divorce. Fitch charged that his wife was epenly and notoriously consorting with one Daniel Savage, here in Oakland, as d that when he accused her of infidelity she con-

On the other hand, Mr., Fitch No. 3, in her answer and cross-complaint, accused Fitch of extreme truelty, alleging that on one occasion he had thrown a painter's jack at her and struck her with such force as to cut and bruise the skin. She also : ccused Fitch of trying to enter a conspiracy with her to rob a certain widow of her property. The proposition that Mrs. Fitch alleged that her husband made to her was as follows:

criuson freshmen eight-oared crew beat the youngsters from New Haven by three lengths, and the Harvard versity four bettered this performance a little "I have a widow living with me at the house at 833 Grand avenue who has some property. She is stuck on me and if you will let me get a divorce later by rowing away from Yale in the last eighth of a rile of a surprising race and finishing four lengths in the lead.

A quartering down-stream breeze, from you, I will marry her and as soon as I can get hold of her property, I will make it so hot for her that she will sue me for a divorce, and then you A quartering down-stream breeze, will make it so hot for her that which rose to 8 knots an hour before the and I will get married ag in." second race began, cut down the time

Fails to Appear in Contest

When the suit came to trial, however, Mrs. Fitch No. 3 falled to appear in the Superior Court to defend her case and prosecute her cross-complaint. This, of course, left clear suiling for Fitch. He indignantly denied the charge that he had attempted to onnive with his spouse against the Grand avenue widow, and while admittin; that he had thrown the painter's jack, explained that it had been intended for his wife's affinity as well as horself. at the eighth mile mark and remained so until choers from one of the Harvard class boats nerved the crimson carsuren

"When I went home, one night." Fitch testified, "I caught Savage and my wife kissing and hugg ng each other on the porch. This was the first intimation of anything wong between them that I had discovered and it made me piping hot, I can assure you. In my rage I grabbed up the jack and let it fly at them. It tit Stvage and bouncing off struck Mrs. Fitch, but it did not cut her."

Fitch told the court that after this incident Mrs. Fitch No. 3 packed up her personal effects and went o live with Savage. He tried to get her to return at the three-quarters Harvard again to him, but she declared that as long as Savage was good to her she would krped Yale's shell, but dropped back oc on and Yale was half a length ahead stick by him, because she loved him better than any other man.

Packers kaise Legal
Point in Ouster Suit

JEFFERSON CITY. Mo., June 30.—
The meat packers whom Attorney General Major is seeking to oust from the state filed demurrers today, alleging no cause of action as shown in the petitions. This raises the legal point made at the last October term of the supreme court unless the attorney general demands the appointment of a commissioner to take testimony.

The Hammond Packing company and the St. Louis Dressed Beef and Provision company in their decurrers ask that the ouster suit be dismissed on the ground that the petitions do not state facts sufficient to constitute a cause of action; that there is a misjoinder of parities, and that the corut has no jurisdiction.

WHAT THE BILL WILL BE.

These conditions require the: the city as a water owner, must have the entire field to liself. If it has a rival corporation in the field competition must be met and public wherehip become a burden and not a benefit. Knowledge of this led a majority of our citizens to vote against the purchase of the Bay Cities Water Company's hypothetical supply when it was offered a few years a; o.

EXACTING CONTRACTS.

Now the Bay Cities Water Company is in the field again, exacting contracts from water consumers to run ten years, to be a lien of the real estate of the signer for that term. Suppose that this should su coed and our streets are torn up to jut in the pines of the Bay Cities Water Company of the Bay Cities Water contents was settled in the contest between Richmond and the Illinois Central Rallway in the Dunleith elevator case, and the water contents of the Water Contents was softled.

systems, when they need only one, leaving the other in the field as a rival, or will they vote a booled debt to put in a new system and eave two competitors in the field, af er again tearing up the streets to put in a city system. Let either course be taken and the result will be loss and economic waste.

CORPORATION CAN CO. LECT.

Suppose, again, that with the Pooples Water Company purch ased the city, with the Bay Cities Water Company in the field supported by its: system of ten years' contracts which are a lien on the real estate of the signers, and the signer turn to the use of the city supply!

Nullifying Water Competition.

The cut in "back haul" rates from terminal points having water competition made by the Interstate Commerce Commission is likely to have an unfavorable effect on the trade of the seaport towns and commercial centers located on large navigable rivers. It will operate to give interior trading points an artificial advantage, and to the same extent dep ive seaports of the advantage nature gave them. Thus the reduction of the "back haul" rate from Sacramento to Reno operates to the advantage of Reno and the disadvantage of San Francisco and Sacramento. Reno is the supply center of a large district, and the reduction will help her jobbing trade and hurt that of Sacramento and San Francisco. Sacramento is given a through terminal rate because she is situated on a river open to navigation all the year round. Reno is not given a through terminal rate because she is without transportation competition by either water or rail. Apparently the Interstate Commerce Commission believes the government should correct the mistakes of nature. H. M. Robbins, president of the San Francisco Merchants' Association, affects to think the cut in "back haul" rates will result beneficially to San Francisco. William Gerstle, president of the San Franci-co Merchants' Exchange, takes directly the opposite view. . Ie says "the decision is a bad thing for San Francisco. It will confine our business to the immediate vicinity. It is equally bad for Sea tle, Portland and other Pacific seaboard ports." However, a great many people are carried away by the notion that nullifying the alvantages of water competition is a blow to the railroads and is therefore something to be desired.

The Indictment of Charles P. Snell.

The indictment of Charles P. Snell by the Federal Grand Jury

will bring the methods of 'Villiam J. Burns under review before a tribunal which will not throw the mantle of judicial protection around practices that reek of the infamies of Titus Oates. Snell was an immunity witness for Burns in the prosecution of Dr. E. B. Perrin, a wealthy and reputable ci izen of San Francisco. Burns relieved Snell of legal responsibility for several offenses against the law and put him on the government payroll, whereupon Snell became a swift and vindictive witness against Perrin. At the time Burns enlisted the services of Snel as an immunity witness Snell was trying to collect from Dr. Per in a claim for legal and other services which Perrin alleged to be a blackmailing one. Snell apparently attempted to use the crusade against land grabbers instituted by Secretary Hitchcock as a leverage to compel Perrin to pay him money that Per in said he did not owe and which he refused to pay. While Per in was resisting this alleged attempt to blackmail him Perrin was indicted for land frauds on the testimony of Snell. For giving this testimony Snell has now been indicted on six counts. Per in was convicted also on Snell's testimony, but the judgment was revers d by the United States Circuit Court of Appeals on the ground that documentary evidence tending to prove Perrin's innocerce was not permitted to go before the jury. It has been alleged that the agents of Burns intimidated some of the jurymen who sat in Perrin's case. Moreover, it is charged that Burns was allowed to tell the Grand Jury that indicted Pertin that Persident Roosey It wanted him indicted. After the conviction of Perrin Snell made an affidavit in Arizona to the effect that the criminal acts he charged against Perrin were not committed. This affidavit was made under promise that Perrin would not the disputed claim which Perrin asserted to be a blackmailing one. After getting he affidavit Perrin refused to pay the claim, and cites Snell's conduct in this matter as further proof of his villainy. The complaint in a suit against Perrin filed by Snell prior to the time that worthy became a contract witness for Burns contradicts the testimony given at Pe rin's trial. The trial of Snell will be an interesting one because it involves a question which has been a vital one in Cal fornia for several years, namely: the compounding of felonies to procure test mony against persons selected makes the body healthy, the soul happy, and frees one from sin. for prosecution and the en ployment of immunity contract witnesses to secure the conviction of persons whose guilt is at least an open question, to be determined by fair trial according to law. If the charges against Snel are tine, Dr. Perrin was made the victim of a corrupt alliance between a blackmailer and a conspirator who employed perjury, subcrnation of perjury and jury intimidation to convict an innocent man of high standing in the community It will be worth while if W lliam J Burns can be forced to come back here and give on the w tness s and an account of his methods of procedure he employed as a gove nment detective.

Man Still Half a Savage.

All the has-beens of the fistic arena are flocking to Reno. Even that old-time "champeen" Jake Kilmin came limping in the other day. John L. Sullivan, plus a parinch and minus his punch, is there. Joe Gans would have been present also, but tuberculosis laid him low when he was getting ready to start. Very likely the brother. Jeffries-Johnson fight will be the lest and greatest muster at the prize ring. It will be a notable gathering because of the celebrities who are coming from all par s of the world to witness the combat of a white man and a negro for supremacy in the fistic arenae Thousands will flock arount the bulletin boards in every 'American city to get the news while the fight is in progress. In California the coming fight s the absorbing topic of conversation in all public places. Even the clerge make it the subject of pulpit discourses, and Roosevelt, Taft. Ba'linger, Pinchot, the tariff and William Jennings Bryan have ceased for the moment to excite public interest. The fighters hold the stage for the moment. Modern man is a good deal of a brute under the vencer of civilization. His tastes still hark back to the jungle in which his ancestors fought bare-handed with wild beasts. How we piously and conventionally regard prizefighting as barbarous and degrading, but, Lord, how we do love a good fight-a real, smashing, stand-up-and-beknocked-down battle between men of might and brawn. The aucients deified their biggest fighting men, and hanged if the moderns are not very much disposed to do the same thing. Barring of Fireworks Would Have Caused Heavy Loss, Say Businessmen.

RECORDS SHOW FEW FIRES CAUSED BY EXPLOSIVES

Dealers Are Making Elaborate Preparations to Furnish Youthful Noisemakers.

There is joy among the merchants of this city who, in the past, have been dealers in fireworks, for the reason that Mayor Mott has seen fit to veto the ordinance which sought to Insure to Oakland "a safe and a sane Fourth."

There is also joy among the prospec tive venders of explosives for the celebration of the anniversary of the nation's birth, and many of these dealers are lads attending school.

Even now, those dealers who have es tablished places of business as well as the lads who, for the first three days it July, act as curbstone brokers in ex plosives, are getting ready to display and hawk their wares with an energy inspired by gratification over the vetoing of the repressive measure which the counci passed up to the executive.

FIREWORKS ON HAND.

It is understood that there are in the gity at the present time about \$30,00; orth of firewroks But this amount will is immediately increased for the reason that the leading dealers in this commo-lity have already placed orders enlarging their stock and, as a consequence, the places in Son Francisco in which pyrotechnics are manufactured, are work-ing overtime to be able to supply the demand. This overtime is the result of demand. This overline is the result of the uncertainty of the Mayor's action; with respect to the approval or the veto-ing of the anti-linework ordinance. Now that the action of the Mayor has again placed in the hands of Young America the firecracker with which to celebrate the national birthday, no time is lost by the purveyors of the same to cater to the youthful patriot.

As a consequence, the lad who has been

asing his pennies for the past monti-in, who has been selling bottles and junk in order to increase his pile, will have at least one more opportunity to colebrate the Fourth after the incurse that the fallors of the country LBA 3 heen celebrating t since the declaration of independence.

He had, he said, a large lot of fireworks on hand which he had specially ordered for the coming celebration and, if the ordinance had been allowed to trand, he would have lost the amount of money which he had invested in the purchase. He did not deny the right of the council to legislate on the matter, in the felt that the subject ought to have been brought up carlier in the year aid not leave it until merchants had innocently put mit money which would represent a dead iess.

COST OF INQUIRY

to Investigate Indian Land Contracts Is Helpless.

WASHINGTON, June 30 .- Members of charges made by Senator Gore relating discovered that the committee will not be provided with funds to defray the cost of inguiry,

of inquiry.

When the inquiry resolution was passed
Senators Hale and Hughes stated that
no appropriation was available. This
leclaration attracted the attention of
Senator Jones of Washington and other
members of the committee and it is
probable that the committee will not

take up the inquiry until congress assembles in December.

The house committee appointed to inquire into Indian affairs in Oklahoma, however, was given broad powers and funds to cover the cost of investigation. The resolution provided that all penses of the commission could be vided out of the house contingent fund.

In a letter framed by Mayor Noy and the public utilities committee and the city attorney, the Bay Cittes company was asked to extend its offer to the municipality of a purchase option from two to ten years, and to stipulate in the water contract the sources of upply of the company, and the assurance that the water would not be purchased from the Peoples Water company.

In regard to the extension of the option on the plant, Presiden Terds stated that it would not be a rise moye on the part of the company, I masmuch as it would indure the sale of he securities, which the company had already made arrangements to market.

NOT SANE REQUEST.

"No corporation would give an option of ten years on its business," said President Terds yesterday. "Fr m a business standpoint it is not a reasonable or sane request, but from my po nt of view I am ready and willing to give the city of Alameda an option for fit y years. We can make a reasonable am unt of money if we sell our plant to you in fifty years, and that is all we want to do. If we should try to do more tain that you could take the plant from is on condemination proceedings.

SOURCE OF SUFPLY.

President Tevis assured the city officials of Alameda that his company would not furnish water from any sources would not furnish water from any sources now used to supply Alamera. He stated that it would entail a heav expense and a great loss of time to in any way change the contracts now being chumated in the city, but agreed to draw up a written agreement with Alameda testifying as to the quality and sources of water to be supplied. That this would be satisfactory to the city was stated by Mayor Noy and City Attorney timpson. Although the representatives of the city suggested the lease insteas of the purchase of the plant of the Bay Citles company, President Tevis dated that a lease would complicate maters inasmuch as its value would depend upon the as its value would depend upon the amount of business done by the com-pany, and as this business rould increase it would be impossible to regulate a

Improved Apparatus Invented by Student

BERKELEY, June 30 - Important changes have been made in the electrical apparatus of the physics repartment of the university by Oliver D wdoll, a former student. By means of the new switchboard installed by ilm any de-sired amount of electricity from 2 to 275 volts can be turned into an part of the building and a voltage of either 110 or 220 volts, alternating cur ent, can be furnished to any room.

Where before there was over half a mile of wire between the bard and the battery room, there is now but 700 feet and the waste of current has been reduced by other changes from twenty-five per cent loss to two or cert. A new method of charging the storage bat-teries in the building has also been devised by Dowdell.

SAN FRANCISCO, June 3'.—While speculation is still rife rega ding the appointment of a successor to Harry P. Flannery on the hoard of polce commissioners, Mayor P. H. JeCarthy denies that he has made up his mind as to the successful candicate, and affirms that all guesses are made entirely without foundation and that he has not so much as whisp red who

thely without foundation and that he has not so much as whisp red who the lucky man will be.

"I have not discussed the question of the new appointee for the police commission at all," said the mayor today, "and I don't intend the Wren I have made up my mind I will give out the name of the successful min, and until then I can and will say nothing. I have not indicat do in sny and until then I can and will say nothing. I have not indicat d in any manner whom I will choose and any statement in the press to he effect that one man or another is lated for the post is mere guesswork.

NOT AS WELL. Mayor McCarthy was seen at his home after his ankle hid been dressed by his physician, and declared that he was not as well today as yes-

terday.
"I think I must have caught cold in my trip down town yesterday," he averred, "but I'll be all right shortly, I've been so used to the warmth of this house that another atmosphere had a disagreeable effect upon

BROOKS ANNOYED

Fire Department Requested to Demolish Obstruction, But Declines the Job.

A Brooks of Bay View avenue Elm hurst within a foot of whose home his next door neighbor W F Jerome has erected a rough board spite-fence twenty

feeted a rough board spite-fence twenty feet in height has made an appeal to the fire department to remove the unsightly obstruction but the application for relief could not be granted. Brooks called personelly on First Assistant Chief Engineer McDonaid of the department vesterday, and detailed the manuer in which his neighbor had darkment his home and desired to know if the hooks and ladders of the depart ment could not be utilized in razing the unsightly structure to the ground

The fire fighters stated that the demolition of fences of that kind was not one of the duties assigned to the firemen of the city the only time firefighters authorized to interfere with fences was when those fences were in flames. It then became their duty to extinguish the flames and in the event that the fire could not be stopped in that mainer to emonsh the lences Brook's alleged offense the firefighters

RIBUNE HEADQUARTERS, RENO, Nev., June 30.— Before the largest and most representative gathering of people that Jim Jeffr es has ever trained before the undeicated champion pranced through his gymnasium stunts yesterday for the benefit of the moving picture men. Gov-Pernor Dickerson, Captain of State I olice Cox and the warden of the state prison were among the speciators and among the crowd that gathered were all the uctable nen of the boxing world, with but very few exceptions. The crowe numbered at least two thousond people, at least one-third of their being of the gentler sex.

Real Western Life Found Here

Here was to be found the real Western life that is fast fading away, and the chances are that no such rotable gathering of the sporting world will ever come toge her again. Long have many of the sporting celebrities who are here waited for that moment when they were to see the reighty leftries in a real workout and the single of the sporting the ring with his black foe. The fact that the big man has worked at such an inusual hour and at such intervals that pleased his fancy best has made it almost impossible for the experts to get a chance to look I m over.

Rickard has all along thought that he was the originate of two referees, Sullivan says that the only difference in his fight and the prescut one is that Rickard seems afraid that he will he injured while he was afraid of being cheated.

Sullivan today said that he believed Jeffries to be in good condition but still had fear that he might not be right on the inside. By this the old timer in doubt meant that Jeffries might prove weak of heart or lung pot er when in the real buttle. (By EDDIE SMITH.

FIGHT FANS INVADE.

Today marked the beginning of the real invasion of Reno by the country's fight tans From east and west they are coming every train crowded to its utmost capacity' Hundreds acrived this morning and scattered about the city to seek accommodations in the smaller hostelries and lodging-houses, as only those who took the precaution weeks ago to reserve rooms can hope from now on to be put up in Reno's two main betels.

A conspicuous arrival from the coast was Starley Ketchel, the middle-weight, who is championing the cause of Jack Johnson Ketchel, accompanied by his nanaer, lost no time in securing an a ttomobile and making a quick trip to the black fighter's camp.

Rotund Baseball Manager Works Hand in Glove With Gleason and Will Divide Promoter's Profits; Trusts and Independents in Agreement

(By EDDIE SMITH.)

RIBUNE HEADQUARTERS, Reno, Nev., June 30.-When the bils for the Johnson-Jeffries fight were opened at New York and Tex Rickard was awarded the contract to handle the contest the fans throughout the country marveled at the ease with which the astute James Wellington Coffroth, known as the premier promoter of pogilistic contests in this country, laid down. Jimmy was not even present when the bids were opened and had it come to a case of open hidding for the event he would have been without representation. This fact was taken by the wise boys as proof that Jimmy knew the bid of Rickard and also knew just where he stood.

Coffroth and Rickard Combined?

For several weeks after the contest it was argued that Coffroth vas in with Rickard and Gleason, but this was denied by Rickard, and he even went so fir as to say that he would not even stage the contest at Coffroth's Mission street arena for fear people might believe that he was an interested party. At the time of the bidding Jack Gleason and Coffreth had doubled up with their bids and they bid for the contest as co-partners.

When their bid was turned down and he bid of Rickard and Gleason was opened and accepted many of the writers thought that Gleason had louble-crossed ranged in the following manner: Coffroth and some of then said so in no very gentle terms. The large use into which te automobile has come during the pat year for purely practical utility purposes has stamped it as one of the ne essary accessories to modern business. A considerable share of the machines classed as pleasure cars are actually soil for commercial purposes. Among this emay be enumbered the machines used by statesmen, by men of business comections requiring extensive travel and by physicians in caring for their practice.

Every large city is now buying numbers.

cians in caring for their practice.

Every large city is now buying numbers of cars to put at the disposal of their various departments and off clais. The use of automobiles in this cornection has become absolutely essential a efficient admiristration of municipal a fairs where there is any considerable terriary to seep under supervision.

under supervision.

But recently the San Franci co board of tealth found the use of a cenecessary and the city bought and gast them the use of a model 19 Haynes. The service that this machine has already been called upon to perform easily justifes its purchase. It is driven and cared for by Dr. William Fletcher McNutt Jr., who is chief

compared with the ordinary r oversuing construction.

It is shown that an American undersling car will hold the track when driven at a speed of eighty-four mi sper hour over a circle with a radius of 397 feet. To travel at the same rato of speed without turning turtle, the overslung ser must be put on a circle whose radius is 788 feet.—almost again as much as that required by the American.

The reason for this disparily is the location of the centers of grivity in the two types of construction. If the American it is 219 inches from the ground, and in the overslung can 30.2 inches It is then shown, by figures, that the exertion of centrifugal force on the ligher center of gravity is so great that the overslung can will roll over if tipped to an angle exceeding 43 degrees, wherea the American's tipping point is 55 deg tees. The accident occurred between Thirteenth and Fourteenth streets. Motorman A. Beauchamps and Conductor C Berg conveyed Haire to the Mission Emergency hospital. After treatment by Dr. Schoonberg he was able to go home.

Just what plea will be made in court Saturday by the young nan is not known, as both he and his f. ther. J E Barnard, refuse to discuss he matter. It is thought that an effort will be made to mitigate, as far as possible the heavy sentence on a felony charge by asking it. T Helgerson, insurgent, have been retained as his council, so there is a chance that a surprise may be spring in hance that a surprise may be spring in court in the defense of Barnard

It still remains a mystery which the detectives have been unable o clear up as to what Barnard did with the large sums of money he embezzle I from the company. He was deeply in debt at the time of his arrest, and in spite of this, the police can not find that he has been wasting money in riotous living.

Barnard is with his wife father and mother, at the pretty Berkeley residence, 6675 Duncan street. He is under \$20,000 bond, supplied by his father and E. M. and J. T. Hinch, two realty dealers.

Millionaire Convict To Be Welcomed Home

CORTE MADERA, June 30 — The homecoming of Millionaire William B. Bradbury Saturday, when h will be released from San Quentin after serving ten months for perfury, will be a very quiet affair, according to his faithful wife, who has been counting the days that stand between the agid man and freedom. There will be the usual dinner, she says, with a few frends present to welcome him.

"There is no truth," said Mrs. Bradbury, "in all this talk about my husband and I going on a long trip, nor

"There is no truth," said Mrs. Bradbury, "in all this talk about my husband and I going on a long trip, nor will he organize a socie y for needy former convicts. He may go on a business trip, but that is all.

"I expect that several of our relatives will sit down to a Sinday dirner with my husband. There will be nothing elaborate. My nicce, Miss Lenore Van Sickle, will not marry immediately upon Mr. Bradbury's release. To my knowledge she is not engaged. Such of our real friends who care to come will visit us. This trouble has shown us our true friends"

The closing prices today were right around the bettom, and as is usually the case after a break, the market looks weak. Ordinarily, he wever, a break of this much ought to be quite enough. Of course the action of it e New York stock market the last few da 's, and the bad shump there today, had something to de with the decline in wheat. There were also some reports of rain in the Northwest, but there was no general rainobers as it is to control when ought to do to buy again should we have much further decline, for, as we stated before, there is no material change in, the crop butlook in the spring wheat cornery, and some very good authorities today say that the winter wheat crop in cansas, Missouri, Illinois and Indiana, will prove a big disappointment. We still before the total crop, winter and spring wheat will be under rather than over \$60,000,000.

SENATOR LEAVITT BEGINS CAMPAIGN FOR RE-ELECTION

California Representatives Anxious to Return to Congress, Hurrying Home to Mend Political Fences

Senator Frank Leavitt of the Sixteenth Angeles, and Prof. H. B. Hanley (Resenatorial district has opened headquarters in the Union Savings Bank building at Broadway and Thirteenth street, and will hereafter devote some time to a thorough canvass of the district for the purpose of being returned to the Senate where he has been one of the Republican leaders for a number of years. The only candidate who has appeared in the field against him is Edward Tyrrel, the

only candidate who has appeared in the field against him is Edward Tyrrel, the secretary of Mayor Mott.

All the senators and representatives comprising the California delegation in Congress, which adjourned a few days ago, are either on their way home or natiting preparations for their return. At best, but a few days will clapse before they will have returned to their districts for the purpose of taking up the management of their several campaigns for re-election. Each of the representatives idesires to be teturned to Corgress. There is some doubt as to the wishes of Sentitor Film ton the subject and that doubt will have to be resolved later. Senator Perkins, however, does not have to go before the legislature for re-election at this time, having four years as yet to serve on his present term.

KNOWLAND NOT OPPOSED.

Congressman Knowland of the Third district, which comprises the counties of Alameda, Contra Costa and Solano, is the only member of the lower house of Congress who is not yet being opposed by a rival candidate.

In the First district, the incumbent, W. F. Engelbright of Nevada City, desires to succeed himself, and running against him for the nomination are to the company and John L. Calids (Republican) of Del Norte.
